

Unpoured Polygon

Modified by Jason Howie on Oct 20, 2014

Rule category: [Electrical](#)

Rule classification: Unary

Summary

This rule detects polygons that have been defined as outlines only.

Constraints

Constraints

Allow unpoured

Default constraints for the Unpoured Polygon rule.

- **Allow unpoured** - if enabled, all polygons that fall within the scope of this design rule will not be flagged as a violation.

How Duplicate Rule Contentions are Resolved

All rules are resolved by the priority setting. The system goes through the rules from highest to lowest priority and picks the first one whose scope expression(s) match the object(s) being checked.

Rule Application

Online DRC and Batch DRC.
